

March 25, 2009

To Whom It May Concern,

Cedar Springs employed the services of H₂O Dynamic Solutions to facilitate the development of a comprehensive Good Manufacturing Practices (GMP) and two Hazard Analysis Critical Control Points (HACCP) programs for our bottling facility in Concord, Ontario. We have also used the services H₂O Dynamic Solutions in a consulting capacity in the upgrade of specific components of our process.

We have found H₂O Dynamic Solutions to be extremely competent, professional and a wealth of knowledge pertaining to all aspects of the bottled water industry. Their onsite training sessions were customized to address our specific needs and have been a tremendous benefit to our internal production staff and our food safety programs.

I would recommend H₂O Dynamic Solutions to other bottlers based on the excellent experience we have had on our projects. I trust this referral will be of value and please do not hesitate to call me at the number below if you have any further questions.

Sincerely,

Andrew Watt

Operations Manager

Cedar Springs
