Letter of Reference

Ice River Springs has contracted H<sub>2</sub>O Dynamic Solutions of Grafton, Ontario to conduct the monthly well monitoring of our production wells, surrounding wells, pizometers, and surface water monitoring stations as per the conditions of our Permit To Take Water (PTTW) issued by the Ministry of the Environment for our Grafton water source.

H<sub>2</sub>O Dynamic Solutions has conducted it duties in a professional manner and submits its comprehensive monthly reports in a timely manner. They have a great deal of knowledge with regards to the PTTW compliance, hydrogeology, and well head construction, design and maintenance.

It has been a pleasure working with H<sub>2</sub>O Dynamic Solutions and would recommend them to anyone that requires assistance in regulatory compliance. Please feel free to contact me at the number below if you have any questions.

Regards,
